

## **Inhouse Shop Mechanic Job Description**

Position:	Inhouse Shop Mechanic	Drug Test:	Yes
Type of Company:	Repair	Background Check:	Yes
Rate of Pay:	DOE	Physical:	Yes or No, special information
Hours per week:	30 - 40	DMV:	only if requires to job
Location:	Tracy		
Schedule:	Various		

The company is searching for mechanically inclined individuals to fill an entry level position for individuals who would like to learn equipment service and repair, new equipment build-up and used equipment reconditioning. On the job training is provided. Great opportunity for advancement and full benefits.

Company has been in business for over 35 years repairing janitorial and landscaping equipment in California, Nevada and Arizona. They specialize in repairing all types of janitorial equipment as well as small gas and propane powered engines and for any application.

The ideal candidate will have some basic electrical knowledge in AC and DC voltage and small engine repair.

All applicants must have good customer service skills and a positive attitude.

Types of equipment serviced are battery powered automatic scrubbers, vacuum cleaners, electric swing buffers, pressure washers, propane powered floor burnishers, carpet extractors, stump grinders, lawn mowers and a whole lot more.

Should have a relatively clean DMV and be able to pass a drug test and background check.

Although this is an entry level position, there is great opportunity for advancement and full benefits.

Company is a drug free workplace.
